

CELTIC

BASKETBALL
CAMP

CO-ED AGES 13 - 19

Top notch coaches from high schools and universities attend Celtic. Athletes who have attended Celtic have gone on to compete for major university and college teams in Canada and the U.S. Many others are contributing to their school and club teams with a greater understanding and better perspective about their sport.

By teaching individual skills and team concepts in the focused atmosphere of a residential camp, we ensure that athletes return to their high school or club as a stronger player.

This is an intensive teaching camp. Ability matched groups enhance individual skill development and team play. Offense, defense, transition, self-motivation, and getting the most from your practice time are all aspects taught at Celtic. In addition to time on the courts, campers are immersed in a fun camp atmosphere. Campfires, beach time, games, and living in a cabin are all part of the Celtic experience.
